1. If a covered item fails during the contract term, the contract holder must place a service request at www.homewarranty.com or by calling 1-800-308-1420. Should the contract holder contract directly with others or do the work themselves, Fidelity National Home Warranty (FNHW) will not reimburse that cost. Upon receipt of a service request, FNHW will contact an independent service contractor (contractor) within 3 hours during normal business hours and 48 hours on weekends and holidays. Our assigned contractor will then call the contract holder directly to schedule a mutually convenient appointment during normal business hours. FNHW will determine what service requests constitute an emergency and will make reasonable efforts to expedite emergency service. **Nevada Contract Holders: Emergency as defined by the Nevada Revised Statutes includes, but is not limited to the loss of heating, cooling, plumbing, or substantial loss of electrical service by the contract holder. Emergency service work will be started no later than 24 hours after the report of the claim. If FNHW cannot complete the emergency repairs within 3 calendar days after the report of the claim then FNHW will provide a status report to the contract holder no later than 3 calendar days after the report of the claim.** The contract holder is responsible for any additional fees, including overtime, for non-emergency services requested outside normal business hours. Please call 1-800-308-1420 with any concerns regarding the contractor providing service or problems scheduling an appointment.

2. Should FNHW grant the contract holder permission to contact a contractor directly to perform a covered service, FNHW will reimburse the contract holder only if the contractor is qualified, licensed, insured, and provides fair and reasonable rates on parts and labor. Once the contractor arrives at the property and prior to the contractor performing any repairs for which the contract holder may seek reimbursement, the contract holder must contact FNHW by calling 1-800-208-3151 to confirm that service work is covered under the contract.

3. **Service Trade Call Fee (fee):** A \$65.00 fee is due for each service trade request and is paid to the contractor upon arrival at the home. For example, if a contract holder needs both a plumber and an appliance technician, each will require a separate service trade call fee. The fee is due once we initiate the service request on your behalf and is still due when: the diagnosis results in a complete or partial exclusion of coverage; the contractor is in route to the home and you cancel the appointment; you fail to provide the necessary access to perform the service request, including not being home at the time of the pre-arranged appointment. Service requests must be received prior to the expiration of the contract term. **Arizona Contract Holders only:** Failure to pay the service trade call fee will result in suspension of coverage until such time as the proper fee is paid. Upon receipt of that payment, coverage will be reinstated for the remainder of the contract term.

Note: Service Trade Call Fee for Structural Endorsement Option is \$100.00 per structural service call. All conditions and terms apply.

4. **Service work** is warrantied (without an additional service trade call fee) for 30 days on labor and 90 days on parts. The 30/90-day warranty only applies to malfunctions that are reported to FNHW during the term of this contract.

5. **Buyer's Coverage:** Starts at the close of escrow and continues for thirteen months provided the contract fee is paid at the close of escrow. When the contract fee has not been received by FNHW, request for service will be dispatched once contract payment can be verified by the closing agency and/or another source of contract payment is made (i.e., credit card). You must call for service prior to the expiration of this contract.

6. **New Construction Coverage:** Plan coverage and any optional coverage begins on the first anniversary of the close of escrow and continues for 4 years from that date, provided the plan fee is received by FNHW within 10 working days from the close of escrow. All systems and appliances to be covered must be in good working condition at the time coverage begins on the first anniversary after the close of escrow. Anytime during the first year of coverage, the contract holder may call FNHW for assistance in the event of a problem with the systems or appliances generally described in this plan. FNHW will assist the contract holder in contacting the manufacturer or contact the manufacturer on the contract holder's behalf to determine the remedies available to the contract holder under the manufacturer's warranty for the system or appliance associated with the contract holder's request.

7. This contract covers single-family dwellings under 5,000 square feet. Dwellings over 5,000 square feet, multi-units, guest houses, casitas and the like are covered if the appropriate additional fee is paid. Covered dwellings cannot be used for commercial purposes, for example, as day care centers, nursing care homes, fraternity/sorority houses, etc.

8. **This contract covers only those parts, components, systems and appliances specifically mentioned as covered and excludes all others.** FNHW provides examples of components 'not covered' to assist understanding of this contract and examples are not exhaustive. We recommend that you review your contract completely. Covered systems and/or appliances must be located within the main foundation of the home or garage except for exterior well pump, air conditioner/evaporative cooler, pressure regulator, waste/stop valves, water heaters, pool/spa equipment, sewage ejector pump and outdoor septic tank system equipment. All coverage is subject to the limitations and conditions mentioned in this contract.

9. **Optional Seller's Coverage:** Must be ordered in conjunction with a Buyer's Plan. Seller's Coverage begins upon issuance of a confirmation number by FNHW and continues for 180 days, close of escrow or termination of listing, whichever comes first. Seller's Coverage may be extended at FNHW's sole discretion. Seller's Coverage is not available on homes in excess of 5,000 square feet, multi-units, guest houses, casitas or any of the Buyer's Coverage Options. The combined contract aggregate limits for the access, diagnosis, repair or replacement of the following items during the Seller's Coverage period apply: heating and/or air conditioning system/evaporative cooler and ductwork = \$1,500.00 maximum; furnace failures due to a cracked heat exchanger or combustion chamber = \$500.00 maximum. All other limits and aggregates apply.

10. **Covered systems and/or appliances must be in good, safe working order at the start of contract coverage.** Unknown pre-existing conditions will be covered if, at the time coverage began, the defect or malfunction would not have been known to the buyer, seller, agent, or home inspector by a visual inspection and/or by operating the system or appliance. A visual inspection of the covered item verifies that it appears structurally intact and without damage or missing parts that would indicate inoperability. Operating the covered item is defined as turning the item on and off to ensure that it is operational. While turned on, the item operates without causing damage, irregular sounds, smoke or other abnormal outcomes.

11. FNHW will repair or replace covered systems and appliances which mechanically malfunction due to insufficient maintenance, rust, corrosion or sediment, unless otherwise noted in this contract.
